

It only takes 30 seconds

FACT

Infectious bacteria
can live on surfaces
for up to 48 hours.

FACT

In thirty seconds,
antibacterial hand
sanitizer kills 99.9% of bacteria.

Take half a minute to eliminate
the cycle of infection.

A Fresh & Clean managed washroom program is designed to give you peace of mind that your washroom will maintain the highest standards of cleanliness and hygiene www.washroom.com.au
