

SAFETY DATA SHEET

SURFACE SANITISER

Infosafe No.: 7EFQL
ISSUED Date : 01/01/2025
ISSUED by: JASOL AUSTRALIA

CLASSIFIED AS HAZARDOUS

Section 1 - Identification

Product Identifier

SURFACE SANITISER

Product Code

SOC08

Company Name

HYGIENE SYSTEMS AUSTRALIA

Address

1/2 Logistics Street Yatala
QLD AUSTRALIA

Telephone/Fax Number

Tel: 07 3801 8500

Emergency Phone Number

0450 697 282

Recommended use of the chemical and restrictions on use

Surface sanitiser

Section 2 - Hazard(s) Identification

GHS classification of the substance/mixture

Classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Eye damage/irritation: Category 2A

Flammable liquids: Category 3

Sensitisation - skin: Category 1A

Signal Word (s)

WARNING

Hazard Statement (s)

H226 Flammable liquid and vapour.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

Pictogram (s)

Exclamation mark, Flame

Precautionary Statement–Prevention

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P233 Keep container tightly closed.
P240 Ground and bond container and receiving equipment.
P241 Use explosion-proof [electrical/ventilating/lighting] equipment.
P242 Use non-sparking tools.
P243 Take action to prevent static discharges.
P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
P264 Wash contaminated skin thoroughly after handling.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
P280 Wear eye protection/face protection.

Precautionary Statement–Response

P302+P352 IF ON SKIN: Wash with plenty of water.
P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P321 Specific treatment (see First Aid measures on this label).
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P337+P313 If eye irritation persists: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before reuse.
P370+P378 In case of fire: Use dry agent, carbon dioxide or foam to extinguish.

Precautionary Statement–Storage

P403+P235 Store in a well-ventilated place. Keep cool.

Precautionary Statement–Disposal

P501 Dispose of contents/container to an approved waste disposal plant.

Section 3 - Composition and Information on Ingredients

Ingredients

Name	CAS	Proportion
Ethanol	64-17-5	15-30 %
Ingredients determined not to be hazardous		Balance

Section 4 - First Aid Measures

First Aid Measures

For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor at once.

Inhalation

If inhaled, remove affected person from contaminated area and keep at rest in a position comfortable for breathing. Keep at rest until recovered. If symptoms develop and/or persist seek medical attention.

Ingestion

Do NOT induce vomiting. Wash/rinse out mouth thoroughly with water. Seek medical attention.

Skin

If there is a skin reaction, remove all contaminated clothing and wash affected area thoroughly with soap and water. Wash contaminated clothing before re-use or discard. If symptoms develop and/or persist seek medical attention.

Eye

If in eyes, hold eyelids apart and wash out immediately with running water. Remove contact lenses, if present and easy to do. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and/or persist seek medical attention.

First Aid Facilities

Eyewash and normal washroom facilities.

Advice to Doctor

Treat symptomatically.

Section 5 - Firefighting Measures

Suitable Extinguishing Media

Use appropriate fire extinguisher for surrounding environment: water spray, polyvalent foam, alcohol-resistant foam, BC powder, carbon dioxide.

Hazards from Combustion Products

CO and CO₂ are formed. Violent to explosive reaction with (strong) oxidizers.

Specific hazards arising from the chemical

Flammable liquid and vapour. May evolve carbon oxides and hydrocarbons when heated to decomposition. Eliminate all ignition sources including cigarettes, open flames, spark producing tools/ switches, naked lights, pilot lights, mobile phones etc., when handling. Earth containers when dispensing fluids.

Hazchem Code

•3Y

Precautions in connection with Fire

Evacuate area and contact emergency services. Toxic gases may be evolved in a fire situation. Remain upwind and notify those downwind of hazard. Wear protective equipment including self-contained breathing apparatus (SCBA) operated in a positive pressure mode. Fight fire from safe location. Use water fog to cool intact containers and nearby storage areas.

Section 6 - Accidental Release Measures

Emergency Procedures

Contain spillage then cover / absorb with non-combustible absorbent material (vermicullate, sand or similar), collect and place in suitable containers for disposal.

Personal Precautions

Wear Personal Protective Equipment (PPE) as detailed in Section 8 of this SDS. Clear area of all unprotected personnel. Ventillate area where possible. Contact emergency services where appropriate.

Environmental Precautions

Prevent from spreading or entering into drains, ditches or rivers by using sand, earth, or other appropriate barriers.

Section 7 - Handling and Storage

Precautions for Safe Handling

Carefully read the product label before use. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area, away from incompatible substances and foodstuffs. Store in suitable, adequately labelled containers. Keep containers tightly closed. Ensure that storage conditions comply with applicable local and national regulations.

Section 8 - Exposure Controls and Personal Protection

Occupational exposure limit values

Substance	Regulations	Exposure Duration	Exposure Limit	Units	Notes
Ethanol		TWA	1000	ppm	ACGIH
Ethanol		TWA	1880	mg/m3	ACGIH
Ethanol		STEL	-	ppm	ACGIH
Ethanol		STEL	-	mg/m3	ACGIH

Engineering Controls

Use in well ventilated areas. Avoid inhalation. Where inhalation risk exists, mechanical explosion proof extraction ventilation is recommended. Flammable / explosive vapours may accumulate in poorly ventilated areas. Vapours are heavier than air and may travel some distance to ignition sources and flash back. Maintain vapour levels below the recommended exposure standard.

Personal Protective Equipment

Avoid contact with the skin and eyes. Personal protection to be selected from those recommended below, as appropriate to mode of use, quantity handled and degree of hazard:

Safety glasses where risk of splashing exists;

Gloves, rubber or plastic where risk of skin contact exists;

Apron/overalls when handling large quantities;

Always maintain a high level of personal hygiene when using this product. That is wash hands before eating, drinking, smoking or using the toilet.

Section 9 - Physical and Chemical Properties

Properties	Description	Properties	Description
Form	Liquid	Colour	Colourless
Odour	White tea & jasmine	Boiling Point	100°C
Solubility in Water	Soluble	Specific Gravity	Not available
pH	6 - 7	Vapour Pressure	Not available
Flammability	Flammable liquid and vapour	Flammable Limits - Lower	Not available
Flammable Limits - Upper	Not available		

Section 10 - Stability and Reactivity

Chemical Stability

Stable under normal conditions of storage and handling.

Conditions to Avoid

Heat, sparks, open flames and other ignition sources.

Incompatible Materials

Oxidising agents, acids, alkalis, metals, heat and ignition sources.

Hazardous Decomposition Products

May evolve toxic gases when heated to decomposition.

Hazardous Polymerization

Product will not undergo polymerisation.

Section 11 - Toxicological Information

Inhalation

Over exposure may result in irritation of the nose and throat, coughing and headache. High level exposure may result in nausea, dizziness and drowsiness.

Skin

Prolonged or repeated contact may result in irritation, rash and dermatitis.

Eye

Contact may result in irritation, lacrimation, pain and redness. May result in burns on prolonged contact.

Germ Cell Mutagenicity

No evidence of mutagenic effects.

Carcinogenicity

Not considered to be a carcinogenic hazard.

Reproductive Toxicity

Not considered to be toxic to reproduction.

STOT - Single Exposure

Not expected to cause toxicity to a specific target organ.

STOT - Repeated Exposure

Not expected to cause toxicity to a specific target organ.

Aspiration Hazard

Not expected to be an aspiration hazard.

Section 12 - Ecological Information

Ecotoxicity

Not expected to be dangerous to the aquatic environment.

Persistence and degradability

Readily biodegradable.

Mobility

Relatively volatile and would therefore readily evaporate from dry soil and surfaces.

Bioaccumulative Potential

Not expected to bioaccumulate.

Other Adverse Effects

Not available.

Section 13 - Disposal Considerations

Disposal Considerations

For small amounts absorb with sand, vermiculite or similar and dispose of to an approved landfill site. Contact the manufacturer/supplier for additional information if disposing of large quantities (if required). Prevent contamination of drains and waterways.

Waste Disposal

Dispose of in accordance with local and national regulations.

Section 14 - Transport Information

Transport Information

Dangerous Goods of Class 3 Flammable Liquids, are incompatible in a placard load with any of the following: - Class 1, Class 2.1, if both the Class 3 and Class 2.1, dangerous goods are in bulk, Class 2.3, Class 4.2, Class 5, Class 6, if the Class 3 dangerous goods are nitromethane and Class 7.

UN Number

1987

Proper Shipping Name

ALCOHOLS, N.O.S.

Transport Hazard Class

3

Packing Group

Special Precautions for User

Not available

IMDG Marine pollutant

No

Transport in Bulk

Not available

Section 15 - Regulatory Information

Regulatory Information

Classified as Hazardous according to the Globally Harmonised System of classification and labelling of chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

Poisons Schedule

Not Scheduled

Section 16 - Any Other Relevant Information

Date of Preparation

SDS created: Jan 2025

Literature References

Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice.

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).
